Foreword

Coming down the road of life, our paths meet at the doors of high school which we enter with hope and from which we emerge better equipped to act the drama of life. During the five years in this venerable institution, we strive to increase our knowledge of the world around us.

It is the aim of the '52 HORNET to preserve through the swiftly passing years the memories we hold in our hearts of the experiences, friendships, and dreams we have shared.

The Juniors, young and willing, followed in the footsteps of their superior Seniors and took an active part in making the past year a prosperous and momentous one. The headache for the year, the prom, was ever pressing. With the frantic effort to secure money always before them, they seized any opportunity to boost their funds. Selling refreshments at games, sponsoring a local movie and carrying out Christmas card sales were only a few of the numerous schemes delved into by the Junior Class. The shining star in their year was the purchasing of class rings, and such a time was had by all on the day of their arrival. Despite the many trials and tribulations of being a Junior they admit it is a year to be remembered.

CREED

We are the Future Homemakers of America
We face the future with warm courage,
And high hope.
For we have the clear consciousness of seeking
Old and precious values.
For we are the builders of homes,
Homes for America's future.
Homes where living will be the expression of
everything
That is good and fair.
Homes where truth and love and security and
faith
Will be realities, not dreams.
We are the Future Homemakers of America
We face the future with warm courage
And high hope.

HOE-DOWN CLUB

One of the newer organizations in H. H. S. is the popular Hoe Down Club. When the old music box beckoned the group to "swing your partner," there were plenty of dancers. Eight sets were all the club could accommodate for the first season.

During the course of the year all types of dancing was introduced, from the snappy fun of square dancing to the more romantic pleasure of whirling in a gay waltz.

The wall flowers fade into the past and the stag-line grows shorter as interest in dancing increases.

SCIENCE CLUB

Where in Herndon School would a budding scientist have a better opportunity to explore his talents than in the Science Club? It was for this purpose that the club was organized several years ago and it is serving its purpose well. Because the programs and activities are varied, the members look forward to the bi-weekly meetings with interest and anticipation.

To Defend

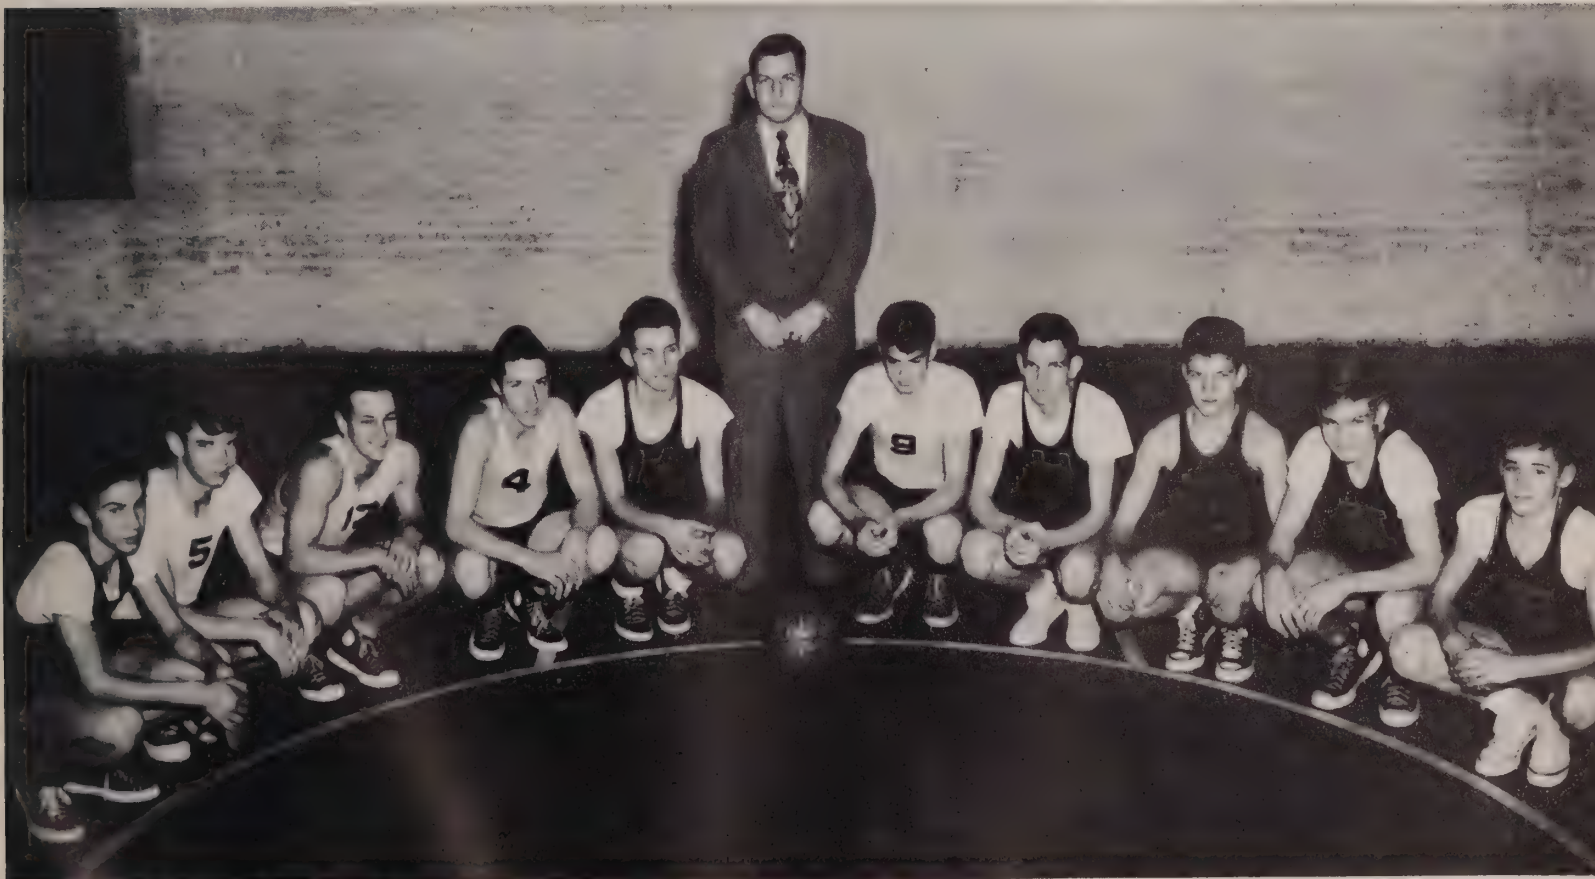

Jimmy Piggott

We are proud of our boys' varsity basketball team who completed the season victorious in sixteen out of eighteen games. They came through with flying colors in the district and regional games and it took the very best in the State to defeat them. The success of the team is credited to Mr. Rolley, the coach; good sportsmanship, and team work.

Thus we come to the forks of the road

leaving the years behind which we have spent together at Herndon School and face the future with determination and fortitude. We pause a moment on the road of life to make our decision and then move on to meet the challenge of the unknown which lies ahead.

The '52 HORNET Staff wishes to express appreciation to Miss Lewis, our sponsor, for the help and inspiration she has provided, for without her efforts our book would not have become a reality.

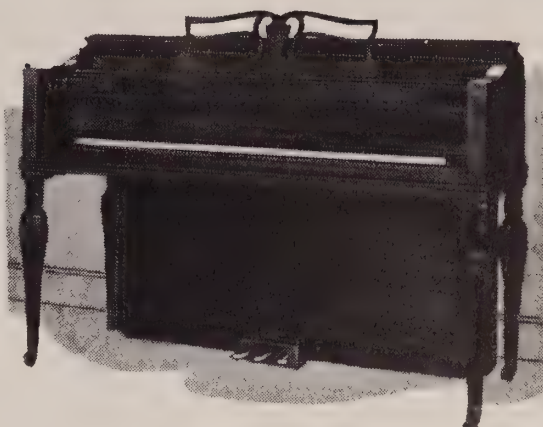

Our thanks go also to H. G. Roebuck & Son, our printers, and to Mr. Porter and Mr. Tiller of Porter Studios who took the pictures for our book. We deeply appreciate our loyal advertisers who have backed us financially. To everyone who has worked to make our 1952 HORNET possible we extend our sincere thanks.
